CONTENTS

|   | <u>Page</u> |
|---|-------------|
| The Setting of Cement and Plasters. -<br>A General Discussion:  |             |
| The Mechanism of the Setting Process in<br>Plaster and Cement. By C.H. DESCH .....  | 1           |
| Crystalloids against Colloids in the Theo-<br>ry of Cements. By H. LE CHATELIER .....   | 8           |
| The Agglomeration of Granular Masses.<br>By F.G. DONNAN .....   | 12          |
| The Constitution and Hydration of Portland<br>Cement. By A.A. KLEIN .....   | 14          |
| The Setting and Hardening of Portland Ce-<br>ment. By G.A. RANKIN .....   | 23          |
| Is the Setting of Cement mainly a Physical<br>or a Chemical Process? By J.G.A. RHODIN   | 29          |
| Ancient and Modern Mortar. By W.J. DIBDIN..   | 31          |
| The Effect of the Addition of Suitable<br>Slag on the Setting Properties of<br>Portland Cement. By E. DENY / E.H. LEWIS   | 36          |
| The Setting of Cement in its Relation to<br>Engineering Structures. By B. BLOUNT ..   | 41          |
| The Effect of the Addition of Slag to Port-<br>land Cement. By P.C.H. WEST .....  | 44          |
| Discussion: W.D. Caroe, A. Binns, W.J. Coop-<br>er, Dr. T.M. Lowry, F.C. Hemmings, Dr.<br>W. Rosenhain, E. Hatschek, Dr. H. Borns,<br>S. Rordam, A.C. Davis, T. Hattori, D.B.<br>Butler, E. Deny, E.H. Lewis, Dr. H.C.<br>Desch ..... | 46          |
